PTX TSX-V

November 29, 2005

Dear Shareholder:

Platinex shares were listed for trading on the TSX Venture Exchange under the trading symbol PTX on November 4, 2005. If your private company share certificates were not delivered to you at time of purchase, you should now have your public company share certificates. If this is not the case please contact me.

This listing would not have been achieved without the support of all the shareholders. At time of writing, the shares have not yet traded. This will happen as Platinex becomes known in the marketplace. You may monitor trading through a link on Platinex's home page at www.platinex.com.

Platinex' management is very active working on several aspects of company building. You will note a press release respecting the proposed acquisition of 81 mining leases. This property adjoins Platinex's Big Trout Lake property and is underlain by an environment permissive for the occurrence of base metal and stratiform platinum group element deposits. You will hear more about this property in the coming months.

Negotiations to retain an investor relations firm are progressing. Clients of this firm have fared well in terms of liquidity and share performance. Negotiations and discussions on a few fronts to finance Platinex's increased level of activity over the next year are also progressing well.

Platinex will endeavor to keep shareholders well informed of significant events as they occur. The company issues press releases on the occurrence of a material change in the affairs of the company. These press releases will be published through Stock Watch (www.stockwatch.com) and on the company website. Management wishes to ensure that as many shareholders as possible are aware of the releases as they occur. To facilitate this I would appreciate receiving your email address. Please send it to jim@platinex.com. We promise not to send out files or give out any type of email list to others. When we send out a release it will be a link within the email.

Thank you again for your support.

On Behalf of the Board,

James R. Trusler
President & CEO
